Re: Virginia Pollutant Discharge Elimination System (VPDES) Permit No. VAR040110 John Tyler  
Community College Municipal Separate Storm Sewer System (MS4) Annual Report 2013-2014  
Review Responses

Dear Mrs. Adamson:

This letter is a formal response to your MS4 Annual Report Review for John Tyler Community College (JTCC) in an email dated April 14, 2015. Please find a response to the requested information:

**Permit II.E.3.c**

Confirm that no water quality samples were collected as part of illicit discharge inspections, or include any monitoring data collected during the reporting period.

**Response:**

Results of collected and analyzed information, mostly qualitative, is inherently reported with each Program BMP. The referenced permit section requests monitoring data if any was included in the collected information. Since no monitoring data was necessary or collected, none was reported.

**Permit II.E.3.g**

Confirm the facility is not using any other programs to satisfy permit MCM requirements, or the progress towards achieving full approval if applicable.

**Response:**

The Program is not reliant on a 3<sup>rd</sup> party's MS4 Program. However, as noted in Section 1.4 of the Annual Report, JTCC relies on the Virginia Community College System (VCCS) for implementation of BMPs 4.1, 4.3, and 4.4 as described in the VCCS Annual Standards and Specifications for ESC. Please note that updated Standards and Specifications are currently under review by DEQ (Joan Salvati).

Should you desire to discuss this response or need additional information, please contact me by phone at 804-594-1430 or by e-mail at [gdunaway@jtcc.edu](mailto:gdunaway@jtcc.edu).

Sincerely,

A handwritten signature in dark ink, appearing to read "Greg Dunaway", is written over a light blue horizontal line.

Greg Dunaway
